Features

Recycled Airflow

The LabGard 605 creates a mini clean room through recirculated airflow. The recycling feature produces ultra clean air for both personnel and animals.

HePeX™ Zero Leak Airflow System

The HePeX™ plenum inflates to provide quiet uniform air without transferring vibration. Positive pressure chambers and ducts are surrounded by negative pressure eliminating potential leaks. HePeX™ fabrics are incredibly durable. They are flameproof, provide a barrier against water, gases, fluid, and dust as well as resist to chemicals, oils, and greases. It even holds antibacterial properties and is impregnable meaning harmful materials become trapped in the filters.

Motor Speed Control

Supply HEPA filter 99.99% @ 0.3 microns

Pre-filter

Protective Filter Grill

Stainless Steel Animal Rack

Stainless Steel Castors

4 Stainless Steel Animal Shelves

Charcoal Filter
