Description The ELPRO LIBERO Ti1 Reusable Multi-Level PDF Logger has a wide range of temperature measurement (-35°C to +70°C), unmatched accuracy, and a battery life of more than one year (400 days). The LIBERO Ti1 is a flexible option for variety of applications. End users can customize up to six alarm levels and add shipment or project-specific information. After downloading the PDF report via any computer USB port, the LIBERO Ti1 can be immediately reused or reprogrammed with a completely new configuration, even a different temperature range. The multi-use capability of the LIBERO Ti1 significantly lowers cost per use.
