### Description

Labworks International delivers customized clean rooms for applications in Research, Healthcare, Life sciences, and Manufacturing. Our clean rooms are complete turn-key solutions with independent third party certifications to ISO standards. Included in the clean room solutions are:

- Clean room aluminum core walls and ceilings;
- Air showers;
- Dedicated HVAC systems including HEPA or ULPA filtration as required;
- Industrial grade PLC based control systems;
- Fit-out as required for the application.

Labworks has the expertise to deliver a complete solution to meet your clean room needs.
